large format 3-ink multi packs

hp no. 81 dye and no. 83 UV ink supplies

The 3-ink Multi pack from HP improves productivity for large format ink customers by providing significant cost savings for high volume users. These users would include, for example large format print service providers, sign shops, graphic art service bureaus, retail and in-house graphic professionals using HP designjet 5500/5000 UV and dye-based printing systems.

customer benefits

- better productivity because of significant cost savings versus individual ink cartridges; you will be in a position to order more ink at one time, at a lower cost, allowing you to stock more ink

- hp designjet 5500/5000 users can choose from a variety of product offerings, which meet their individual printing needs. The total hp no.81 dye and no.83 UV portfolio consists of:
  - single ink cartridges
  - printhead & printhead cleaner
  - value pack (consists of 1 ink cartridge, printhead & printhead cleaner)
  - multi pack (consists of 3 ink cartridges, all of the same colour)

- uncompromising image quality and unrivalled print speeds because hp designjet printers and supplies are engineered, designed and tested together

- great value for low volume users by the combination of an individual ink cartridge with hp's long-life printheads in hp value packs

- perfect fit for signage applications for which hp offers an impressive media product portfolio

features

- **hp** no. 81 dye 3-ink multi pack: includes three hp no. 81 ink cartridges 680 ml, of the same colour (black, cyan, magenta, yellow, light cyan or light magenta)

- **hp** no. 83 UV 3-ink multi pack: includes three hp no. 83 ink cartridges 680 ml, of the same colour (black, cyan, magenta, yellow, light cyan or light magenta)

compatible hp printers

hp printers	sizes
hp designjet 5500	1067 mm & 1524 mm (42" & 60")
hp designjet 5500ps	1067 mm & 1524 mm (42" & 60")
hp designjet 5000	1067 mm & 1524 mm (42" & 60")
hp designjet 5000ps	1067 mm & 1524 mm (42" & 60")

six dye-based/UV-resistant ink colours

- hp no. 81 dye-based and hp no. 83 UV inks are specially formulated to deliver the most brilliant, photo-realistic images and vivid, full-colour graphics

- with two additional ink colours, light cyan and light magenta, the 6-colour ink system achieves the widest colour gamut and smoothest colour transitions offered by hp large format printers

- hp's colour layering technology layers multiple drops of ink in a single dot to produce brilliant colour prints that are clear and sharp, even close up

- ink levels are continuously monitored through smart technology, so users always know how much ink is in each cartridge.

- hp no. 83 UV inks provide lightfastness of more than 100 years on certain media based on tests by Wilhelm research - **www.Wilhelm-research.com**

applications

When you need more durable images with ultimate photo-quality, choose HP no. 83 UV ink supplies. The UV-resistant inks are pigment-based to provide increased durability and fade resistance, when used with HP's recommended printing material. HP no. 83 UV ink supplies are ideal for:

- long-lasting outdoor signs, posters and banners
- long-term retail signs, banners, backdrops and point-of-purchase displays
- window displays
- backlit images
- archival fine art and photographic reproductions
- floor and vehicle graphics

To change between UV and dye inks, use the HP UV Ink Upgrade Kit (includes HP no. 83 UV ink supplies and Storage Container).

- **hp** q1286a ink upgrade kit, 1067 mm (42")
- **hp** q1287a ink upgrade kit, 1524 mm (60")

To store printheads when not in use, use the HP Printhead Storage Container included with the HP Ink Upgrade Kit. The storage container is also sold separately.

- **hp** c2383a printhead storage container

product warranties

- **hp** no. 81 dye and no. 83 UV ink cartridge warranty is valid until the genuine hp ink is depleted as indicated by the printer, or the 'end of warranty' date is reached, whichever occurs first
- **hp** no. 81 dye and no. 83 UV printhead warranty is valid until the 'end of warranty' date printed on the printhead is reached, or 1,000 ml of ink is cycled through the printhead, whichever occurs first
