

Catalogue 2013

Dear customers,

At the start of a new year it is always good to look back on the previous 12 months, take stock and reflect on the colour 001. Because at edding 001 is not only our colour reference for Black - our bestselling colour; but it also denotes our trading and financial situation, which since our foundation in 1960, has without exception always been in the "Black".

This achievement is thanks to our 600 or so employees, from all around the world. When so many diverse cultures and talents come together, differences in terms of concepts, approaches and ideas, are inevitable. Yet we never disagree about quality. Instead, we make it! We not only apply our high standards to our products, but also to the criteria which are critical for your success. These include, for example, order processing, sales support, customer care, sales policies, and the value for money offered. You, our customers, never fail to reward our commitment. We would like to take this opportunity to thank you again for your trust and loyalty!

edding – a top(-selling) brand

Our strong brand is our biggest asset and our greatest obligation. That's why we regard the preservation and protection of the edding brand (and the quality associated with it), as one of the biggest challenges for the future. Current consumer behaviour makes it clear why a strong, likeable and reliable brand is so important. The number of consumers who make deliberate, quality-guided decisions, and opt in favour of brand-name products in order to reduce the purchase risk, is on the increase. The desire for originality, authenticity, and sustainability, is particularly pronounced amongst the younger target group. In a nutshell: in many sectors, markets are increasing in value, but declining in volume. This is also true for the paper, office supplies and stationery industries, in many European markets, and is clearly demonstrated by the figures published by the market research institute, GfK, for the marker panel market¹.

We are growing – closer to our customers

We don't just rely on external advice and studies when it comes to our developments, decisions and measures. We too, have our ears to the ground. We always look at the wider picture – all over the world: After all, a closer understanding of you and your customers, is one of the secrets of our success. As part of a comprehensive, qualitative market study, we consulted consumers about their wishes and needs. Last year, we went to great lengths to put the findings of this study into practice, and you will find the results of our thoughts and actions here, in our new main catalogue.

As the first step, we have developed seven concept categories, with clearly defined target groups and ranges. These include, for example, "Colour and Play", with a vividly bright selection of fibrepens for children. For 2013, we have added a further three creative products to this range, which will delight both children and adults, thanks to their special features. The "Creating and Decorating" category also includes a number of innovative products for this year. Our consumer analyses in this category have shown that customers want to be inspired, and that's precisely what we plan to do, not only with the right pens, but also, with creative ideas of how best to use them, too. Furthermore, our brand and product range will be presented in an even better light in 2013, by means of new POS solutions and simple, clear-cut packaging ideas.

At edding we are looking forward to a prosperous new business year with you, and a continued, successful partnership.

Kind regards,

Per Ledermann, edding AG Management Board.

For the sake of the environment – for tomorrow's world!

At edding sustainability has always been a central part of our corporate philosophy. That's why a sustainable, socially responsible business policy has been our focus since the company was founded. This includes modern, resource-friendly production methods, a photovoltaic system for harvesting solar energy, the commissioning of a block heat and power plant as well as the use of recycled paper in our offices. And it goes without saying that many of our markers are refillable and the tips replaceable.

For tomorrow's world: The caps and barrels of the EcoLine markers are, for the most part, made of recycled material or a renewable resource. Moreover, all the EcoLine sales packaging, e.g., blister packs and sets, are made completely from cardboard.

EcoLine highlighter

At least 70% of the cap and barrel are made from a renewable resource. Particularly suited for marking and highlighting text passages and notes, e.g., in letters, minutes, tables and books. Model is refillable.

edding 24 highlighter

Highlighter with chisel tip, water-based ink with brilliant colours.

At least 70% of the cap and barrel are made from a renewable resource, the filter fibres are made from recycled material.

Neon colours: 005, 006, 009, 010, 011, refillable.

Box of 10 in each colour.

24/4 S Box of 4 markers.

Colours: 005, 006, 009, 011.

Order no.
4-24xxx*

4-24-4

For display see page 85.

At least 70% of the cap and barrel are made from a renewable resource.

Reduction of waste: Product is refillable.

At least 97% of the mouthpiece is made from recycled material.

Inside: Filter fibres made from recycled material.

edding HTK 25 refill ink

For refilling the highlighters edding 24. Water-based ink in a bottle with capillary system.

Simply stand the highlighter tip downwards into the refill bottle for at least an hour, and the highlighter is ready to write again.

Contents: 25 ml.

Educating and Presenting

Stop talking about it and start visualising it! Visuals to back up what you are trying to say are indispensable, particularly when giving presentations. After all, visual communication boosts understanding and improves information retention. From classrooms to seminars: various edding whiteboard markers, flipchart markers and OHP markers are available.

Whiteboard markers

For writing and marking on whiteboards. Dry-wipeable from virtually all non-porous surfaces such as enamel, glass and melamine. Thanks to the "cap-off" ink, the cap can be left off for a few days without the marker drying out. Lightfast and quick-drying. With no added butyl acetate. Almost all models are refillable.

Writing, Highlighting and Correcting

Is your desk chaotic? Not any more. With its various fineliners, rollerballs, gel pens and highlighters, edding organises even the most chaotic of desks. These tireless workers help, for example, to get to the core of the text, note jobs and appointments and also highlight passages. edding also offers just the right pens for correcting mistakes.

Fineliners and ink rollers – disposable

For writing and signing. The tips are mostly metal-shrouded for protection and guarantee a fine writing result. The rollerballs are also suitable for making carbon copies.

Repairing and Maintaining at home

If you're after clever solutions for minor repairs, renovation and maintenance work, then look no further than the marker and wax sets in the "Repairing and Maintaining at home" category. The uncomplicated products including tile markers, furniture markers and carpenter pens ensure that even the most reluctant handyman achieve first-class results. Simple, quick, permanent.

edding 8200 grout marker

Improves the colour of grout joints between tiles in areas of hygiene, such as in the bathroom or kitchen.

Grout marker with bullet tip, permanent, waterproof, low-odour ink with opaque lacquer finish. Valve-controlled ink flow.

Colours: 026, 049.

Individually packaged (blister packs), including 3 spare nibs.

Minimum order: 5 blistercards.

Also available in MMM-blisterbox, see page 86.

~2-4 mm

edding 8150 silicone oil marker

For treatment and care of rubber seals, for example on car doors, fridges and freezers. Clean rubber seals before lightly applying oil with the marker.

Lubricant marker with large chisel tip. Contains colourless and odourless silicone oil.

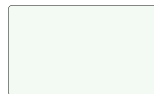

Colour: 000.

Individually packaged (blister packs).

Minimum order: 4 blistercards.

~4-12 mm

edding 8160 universal oil marker

For lubricating and removing rust and labels and the remnants of adhesive tape. Ideal for cleaning objects with surface rust, resinified greases and oils as well as tar stains. It also offers protection against moisture and rust and can be used to maintain closing mechanisms.

Universal oil marker with chisel tip, contains a colour- and odour-free greasing oil.

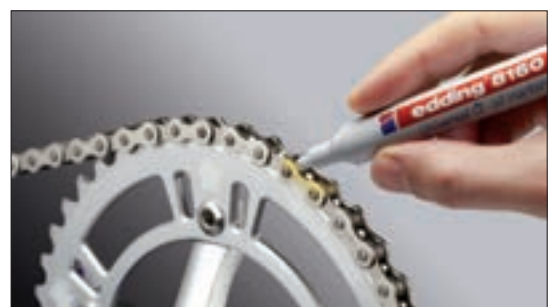

Colour: 000.

Individually packaged (blister packs).

Minimum order: 5 blistercards.

~4 mm

edding 8850 carpenter pen

The long narrow mouthpiece is ideal for marking hard-to-reach places, e.g. drill holes.

Marker pen with bullet tip and transparent cap, special permanent ink.

Colour: 001.

Individually packaged (blister packs).

Minimum order: 5 blistercards.

Order no.

4-8850-1-4001

Also available in the MMM blister box, see page 86.

Creating and Decorating

The pleasure of personalised ideas – discover the wealth of possibilities offered by the edding hobby markers. With this range, we provide a huge selection of products for the creative and refreshingly colourful design of many different surfaces and materials. You will find lots of ideas and instructions at www.edding-creative.com

Our consumers think in applications – just like us.

- 82% of the purchase decision at the POS is influenced by the type of application. (Source: POS Study 2011).
- That's why, as of 2013, edding will be offering its consumer-oriented range in a **new design** and structured according to the various applications for the creative target group. The list of relevant surfaces directly on the marker shows just where the products excel. Furthermore, a picture of the drawn line demonstrates the result which consumers can expect from their edding marker.

Light paper

Dark paper

Terracotta, wood, card and canvas

Textiles

Glass, metal and plastic

Gloss paint markers – glass metal, plastic, paper

Paint markers for brilliant designs on almost all smooth surfaces (glass, metal, plastic, leather, paper and much more). Low-odour, opaque lacquer-finish ink for permanent and waterproof marking and decorating, e.g., for greeting cards and gifts. Also suitable for dark and transparent materials. Quick-drying, weatherproof, very lightfast and smudge-proof. Valve-controlled ink flow.

Activation of the edding gloss paint marker. Shake the marker well with the cap on, place the writing tip of the marker on a piece of test paper, pump a few times by pressing down on the tip carefully until the ink appears in the tip. Check the marker by drawing a few lines on the piece of test paper. Put the cap back on after use.

NEW DESIGN!

Calligraphy training by edding.

Learn to write more elegantly, step by step. A writing style analysis and the ideal application can be found at www.edding-calligraphy-training.com.

Matt paint markers – terracotta, wood, canvas, card

Matt paint markers for silk-matt designs on all, particularly porous, surfaces. Ideal for terracotta, card and wood. Opaque lacquer-finish, waterproof water-based ink with a neutral smell. Weatherproof. Excellent lightfastness. Valve-controlled ink flow.

Activation of the edding matt paint marker: Shake the marker well with the cap on, place the writing tip of the marker on a piece of test paper, pump a few times by pressing down on the tip carefully until the ink appears in the tip. Check the marker by drawing a few lines on the piece of test paper. Put the cap back on after use.

NEW DESIGN!

Colour and Play

High-quality, safe products which guarantee kids will love learning: the edding FUNTASTICS children's brand. In addition to the pens for colouring and drawing on paper, as of 2013 this range will also include child-friendly window and textile markers as well as children's face paint sticks. In addition to the parents of children aged between 3 and 8 years, this category is also aimed at grandparents and relatives who want to give a worthwhile present as well as teachers and all those responsible for purchasing equipment in schools and nurseries.

Fibrepens for children

The fibrepen range comprises of pens and markers for colouring and drawing on paper and has been specially designed for children's hands. The ergonomically shaped grip zone and non-slip zone offer endless drawing fun for kids aged 3 and upwards. The food colouring-based ink can be washed out of most textiles at 40°C. The caps can be left off for 3 days without the pens drying out.

edding 14 FUNTASTICS

Children's fibrepens with a soft bullet tip and ergonomically shaped grip zone ensure fatigue-free colouring and drawing. The water-based ink with food colouring can be washed out of most textiles.

~2-6 mm

Also available in display, see page 91 and 92.

Delivery with display when 10 or more sets are ordered.

edding 47 FUNTASTICS FACE FUN family

Seven bright colours combined in one face paint stick. Easy to apply and just as easy to wash off with soap and water. Ideal for small works of art. Skin-friendly and dermatologically tested. In accordance with EU Cosmetics Directives.

Face paint colours which can be combined: 001-006, 049.

Individually packaged (blistercard). Order no. 4-47F-1-1
Minimum order: 10 blistercards.

~2-4 mm

Only available in display.

NEW DESIGN!

Note:

The laundry marker (edding 8040), e.g. for labelling clothes for school and nursery, together with other products from the **Organising and Marking at home** category are the perfect complement to the children's range. See page 51.

Blister cards

At edding, we believe in keeping things “transparent”. That’s why selected markers, writing instruments and office supplies are also available on blister cards. And because we take environmental considerations into account not only when designing our products but also when designing our packaging, we avoid the use of PVC, polystyrene and CFCs foams.

Colour chart

Furniture colours

Printing on paper does not give exact reproduction of the ink and wax colours.

Legend

Refillable.

Water-based ink.

Barrel made of aluminium.

Cap can be left off for the length of time indicated. The cap off time has been tested under laboratory conditions.

Ventilated cap as specified by ISO 11540.

Cap diam. larger than 16 mm, therefore no ventilation as per ISO 11540 necessary.

Blister packaged.

EAN bar codes refer to the smallest retail unit (single pen, case, blistercard, display). We reserve the right to make changes to the models featured in this catalogue since the edding range is continually being updated. Alteration to our products by any kind of repackaging, e.g. blister, shrink-pack etc., is only permitted with our explicit consent. We cannot accept responsibility for any typing errors.
